

# PEG PUPPETS

## YOU WILL NEED

- A selection of clothes pegs (plastic or wooden)
- Thick paper or card
- Scissors
- Glue
- Googly eyes (optional)
- Yarn (optional)

## METHOD

1. Draw a shape on your paper/card that you will use as your characters' head.
2. Carefully cut out your shape with scissors. Then cut the shape in half horizontally. This will be your characters' mouth, so you can make the cut using a straight line, zig zag or wavy pattern to suit your creation.
3. Apply glue to the peg where you will stick your character.
4. Stick the top half of your character to the top part of your peg, and the bottom half of your character to the bottom part of your peg. Make sure the mouth lines up how you want it to.
5. Now squeeze your peg, and you will see that the mouth of your peg puppet will open and close.
6. Add decorations to your character, like googly eyes, yarn for hair, or just draw with pen.
